# Credit Highlights

- Under the statutory framework, only assets having a fair market value in excess of CPP Investments' liabilities are available to the Government of Canada to satisfy its obligations under the CPP.
- Based on the review of the financial state of the CPP conducted by the Office of the Chief Actuary, CPP Investments' stewards – the federal and provincial finance ministers – may make recommendations as to whether contribution rates should be changed to support the financial sustainability of the CPP. The Insufficient Rates Provisions (in the case of the base CPP) and the Financial Sustainability Provisions (in the case of the additional CPP) would be automatically invoked if necessary to support the financial sustainability of the CPP.
- No Act relating to the insolvency or winding-up of any corporation applies to CPP Investments and in no case shall the affairs of CPP Investments be wound up unless Parliament so provides.

## MOODY'S

- “Stable and strong liquidity with an exclusive legislative mandate”
- “Creditors have an effective priority over pension obligations and benefit from strong asset coverage by high quality liquid assets”
- “CPPIB’s governing framework underpins its financial stability; a system of legislatively mandated and controlled cash flows provides for the overall stability and predictability of CPPIB’s financial position”
